THE AFTERMATH OF THE STORM

The effects of hurricanes can be devastating. Some of these effects include:

- Death and injury.
- Flooding from storm surges.
- Power outages.
- Loss of transportation (roads, airlines, subways, vehicles).
- Homes, schools, churches or businesses that have been destroyed or damaged.
- Food and water shortages from crop damage or lack of transportation.

Pray for those who have been affected by storms.
**THE AFTERMATH OF A STORM**

Storms bring all sorts of feelings to people. There are natural storms, and there are spiritual / emotional storms we all face at times.

Often, people feel the same types of emotions during either, including your children. When we experience these emotions, we need to turn to God for help in dealing with them. When we turn to God, He becomes our strength, and helps us. Are job is not to fix all the problems our kids face, rather, our job is to turn them to God who can help them much more than we can.

Each day, discuss a couple of these emotions with your child, and talk about how they can pray when feeling this way. Train them to become dependent upon God first.

---

**How can people feel after a devastating storm?**
